

11 April 1975

MEMORANDUM FOR: Inspector General

1. Elliot Maxwell, legal member of the Senate Select Committee task force, visited Headquarters today and reviewed two items:

- a. Background material on CIA legislative history (material prepared by Office of Legislative Counsel).
- b. General Counsel opinions on parts of Section III.A.3. of Senator Church's request.

These items were requested for retention by the Senate Committee, to be transmitted today. I advised that these were raw documents and that in the interest of time they had been provided in that form so that selections could be made. I explained they required examination for Third Agency implications and any revelation of sources and methods, and this along with the copying could not be accomplished today.

2. Mr. Maxwell requested that the necessary review be completed as soon as possible as all the documents were essential to the task of the Committee. He will be back at headquarters again Tuesday, 14 April, and hopes to receive all or some part of the material.

3. I have provided a copy of this memorandum to the Office of the General Counsel, attention [redacted]
